CAPABILITIES

CUSTOM, GENERAL AND HEAVY MACHINING

CNC PRODUCTION · ONE-OFF LATHE

MILLWRIGHT SERVICES

PORTABLE MILLING AND RESURFACING

WELDING: TIG · MIG · STICK · SPRAY

BALANCING · VIBRATION ANALYSIS

ALIGN BORING · BORE WELDING

CYLINDRICAL AND SURFACE GRINDING

CUSTOM GEAR CUTTING AND REBUILDING

BABBITT BEARINGS

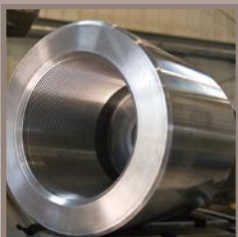

STRAIGHTENING

FIRST CHOICE OF INDUSTRY

THROUGH STRONG PARTNERSHIPS WE DELIVER SUPERIOR SOLUTIONS, SERVICE
AND PRODUCT FOR THE BENEFIT OF OUR CUSTOMERS, EMPLOYEES AND DYNAMIC

INNOVATION PRECISION STRENGTH

In 1970, eight talented machinists started **Dynamic Machine Corporation** which quickly became **Manitoba's Premier Machine Shop**. In 1980, Dynamic added the **Dynamic Fluid Power** division to service its growing hydraulic business. With the full intent of becoming a "complete service solution provider" to their clients, **Dynamic Compressed Air** was created in 1992, so that pneumatics could be added to the product and service offerings. In 2008, **Westcan Hydraulic Lines, Inc.** was added to the **Dynamic Group of Companies**, to service west-Winnipeg.

Expanding to our current location has allowed Dynamic to **serve all industries** – agriculture, food handling, manufacturing, mining, power generation, transportation. Whether it's a custom-machined part or repair, a compressor or air treatment system, a hydraulic or pneumatic component, or engineering and development of a complete fluid power system – Dynamic people are **there, where and when you need us, to be a part of your solution strategy.**

Expertise, knowledge, craftsmanship, dedication and pride, are just a few of the attributes of staff at the "employee-owned" Dynamic Group of Companies. We are as proud of our ability to help hundreds of other small businesses, as we are of our ability to provide state-of-the-art, custom solutions to our industrial clients.

DYNAMIC GROUP OF COMPANIES – FIRST CHOICE OF INDUSTRY

INNOVATION SOLUTIONS

Other machine shops may rely on producing widgets, but at Dynamic Machine we provide **Dynamic solutions**. We will still produce your widgets, if that is what you need, but we may develop and manufacture special tooling, or suggest simplified designs in order to **get the job done in the fastest time and at the most reasonable price**.

Innovative solutions save money. It's that simple. And Dynamic Machine has a solid **track record of successes** for its ability to come up with innovative ways in machining even the most complicated components – saying **“we can do that”** when others give up.

PRECISION CONTROL

If Accuracy is the target – **Precision is the ability to hit that target... time after time**.

Neither is up for negotiation with a Dynamic customer, it's expected. **High accuracy, high repeatability and high speed turn-around** – creating high customer satisfaction.

Precision comes when you **control the process**. From working large shafts to intricate gears, Dynamic professionals are constantly implementing the appropriate checks and balances to ensure that we meet the tight tolerances demanded and **hit the mark time and time again**.

STRENGTH PARTNERSHIPS

People are the strength of Dynamic – from those working the milling machines and operating CNCs to those in the administration office or serving customers at the front counter – each working toward the common goal of creating strong partnerships with our clients.

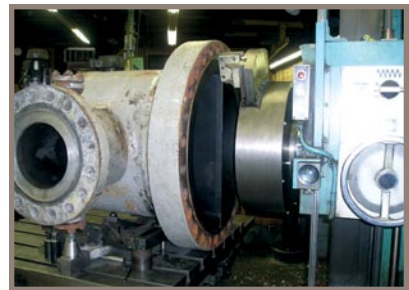

Like our machines, the people at Dynamic **work at high-speeds and with exacting precision to develop innovative solutions and products which satisfy our customers needs** – no matter how complex or intricate their requirements. Whether it's a repair to a broken gear tooth or production of an entirely new unit – **Dynamic delivers!**

WALK-IN SERVICE

POWER GENERATION

MANUFACTURING

DYNAMIC MACHINE OPERATES THE LARGEST COMMERCIAL AND CUSTOM MACHINE SHOP IN MANITOBA, CAPABLE OF HANDLING MOST INDUSTRIAL NEEDS.

VENTILATION

TRANSPORTATION

CONSTRUCTION

MINING

DYNAMIC HAS COME THROUGH FOR US ON SEVERAL LARGE PROJECTS WITH CRITICAL DEADLINES. WE ENJOY WORKING WITH SUCH A RELIABLE, ORGANIZED SUPPLIER THAT GET'S IT RIGHT... THE FIRST TIME.
